

CITY HEIGHTS GETS TO WORK

CenterLine SR-15 Bus Rapid Transit Project

Public Workshop: Saturday June 18, 9:30am—1pm

Held at the El Cajon Blvd Business Improvement Association, 3727 El Cajon Blvd

Come to this workshop to learn how we can develop the CenterLine Bus Rapid Transit Stations and nearby business and neighborhood areas around University Avenue and El Cajon Boulevard to help Mid City residents get to work centers north and south faster and provide jobs and safe walking, biking and transit access to the new stations and adjacent redevelopment. The regional planning agency (SANDAG), Caltrans and the City of San Diego are committed to working with Mid City communities to achieve the best transit environment as a catalyst for revitalization around these transit stations. We need you to be a part of planning for this new future.
