

OPEN HOUSE

CENTERLINE TRANSIT ALTERNATIVES

The SR-15 Citizens' Working Group has developed four alternatives for providing transit through Mid-City in the SR-15 corridor.

Members of the public are invited to an open house to review these plans and provide your input.

SANDAG will be studying these four alternatives over the course of the next 12 months.

This open house is an opportunity to tell them what is most important to our community as these plans are being evaluated.

Drop by any time during the open house and see Drawings, plans, and video simulations of the various options.

**Tuesday, October 14
6:30pm to 8:30pm
at the
El Cajon Boulevard BIA
3727 El Cajon Boulevard**

*Come see these different plans
and let us know what you think.*
